AYUSH MOTICHOOR

Full Stack Developer | MERN Stack | AWS | Docker | CI/CD

ayushmotichur094@gmail.com | +919713096126 | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building and deploying scalable web applications using React and Node.js.

Skilled in cloud-based deployment using AWS and Azure, with practical exposure to Docker and CI/CD pipelines.

SKILLS

- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3.
- **Frameworks and Libraries: Express.js (Node.js)**, React.js, Bootstrap, Tailwind CSS,
- **APIs & Web Concepts**: RESTful APIs, JSON, HTTP Methods.
- **Databases:** MySQL, MongoDB.
- **Cloud & Deployment:** AWS (EC2, S3, RDS), Microsoft Azure (App Service, Azure SQL).
- **DevOps & CI/CD:** Docker, Jenkins, Azure DevOps.
- **Developer Tools:** Git, GitHub, Postman, VS Code.

PROJECTS

Spotify-Music   *React.js | JavaScript | Spotify API | Tailwind.*   **LIVE** GitHub

- Deployed the frontend application on AWS S3 with static website hosting.
- Configured AWS IAM for secure access and managed environment variables for API keys.
- Implemented basic monitoring and error tracking using AWS Cloud Watch.

Background Remover(SaaS) *React.js | Tailwind | JavaScript | MySQL |Clerk | Razor-pay*   **LIVE** GitHub

- **Developed an AI-powered SaaS platform** to remove image backgrounds with high accuracy, achieving an average processing time of **<2 seconds per image**.
- **Integrated Clerk for scalable and secure multi-user authentication**, enabling real-time session handling and role-based access.

Travel-website   *JavaScript | TypeScript | Tailwind*   **LIVE** GitHub

- **Built and deployed a responsive travel booking platform** allowing users to explore destinations, filter packages, and book trips seamlessly.
- **Designed an interactive search form (destination, budget, date) improving user journey and engagement...**
